7:00 Registration and Continental Breakfast

7:50 Welcome

Stephen O. Heard M.D.
Professor and Chair,
Department of Anesthesia,
UMass Medical School
UMass Memorial Medical Center

8:00 Oral Presentations - Session 1

Moderator:
Roman Schumann MD

10:00 Coffee Break

10:30 Oral Presentations - Session 2

Moderator:
J. Matthias Walz MD

12:00 Lunch

Mark Hershey M.D.
President of the MSA

13:30 Oral Presentations - Session 3

Moderator:
Iqbal Ahmed MD

15:15 Coffee Break

15:45 Oral Presentations - Session 4

Moderator:
Mark Hershey MD

17:00 Reception
Session 1:

Review of Literature and Case Report of a Knotted Pulmonary Artery Catheter
Arnel Almeda MD
Joshua Pal MD
Beth Israel Deaconess Medical Center

Transcutaneous Carbon Dioxide Monitoring During Laparoscopic Bariatric Surgery
Preeti Arora MD
Tufts-New England Medical Center

Duloxetine and Postoperative Serotonin Syndrome in Chronic Pain Patients: Institutional Experience
Joshua Pal MD
Beth Israel Deaconess Medical Center

Drug-Eluting Stents and Anesthesia
Aparna Dalal MD
Caritas St. Elizabeth's Medical Center

Persistently Elevated Arterial Lactate as a Herald of Hypoxic Hepatitis
Christine Mai
Boston University Medical Center

Improved Safety, Reliability, and Proficiency Development with a Novel Deltoplectoral Approach (Cohen Approach) to Ultrasound-Guided Infraclavicular Brachial Plexus Block
Joshua Pal MD
Beth Israel Deaconess Medical Center

Systematic Isoflurane Treatment for Prolonged Obstructive Respiratory Failure
Christine Ralph DO
Tufts-New England Medical Center

Chondrolaryngolasty (“Tracheal Shaving”) Under General Anesthesia Using Flexible Fiberoptic Video-Laryngoscopy and Laryngeal Mask Airway
Gerardo Rodriguez MD
Boston University Medical Center

Session 2:

Bispectral Index (BIS) Monitoring and End-tidal Isoflurane Concentrations During Anesthesia for Liver Transplantation
Chad Anderson MD
Tufts-New England Medical Center

The Impact of Clonidine and Fentanyl Added to Caudal Bupivacaine on Perioperative Hemodynamic Parameters and Analgesic Requirements in Pediatric Patients
Lisa Banta MD
Tufts-New England Medical Center

Anesthetic Management of an Octogenarian with Hemophilia A for a Combined Carotid Endarterectomy and CABG
Arvind Chitkara MD
Tufts-New England Medical Center

Postoperative Pulmonary Embolism in a Three Year Old with Klippel-Trenaunay Syndrome
Jana Hudcova MD
Beth-Israel Deaconess Medical Center

Is Intrathecal Anesthesia Safe in Spondyloepiphyseal Dysplasia Congenita?
Gustavo Lozada MD
Tufts-New England Medical Center

A Woman With Hunters Syndrome with a Complicated Intraop Course
Jocelyn Park MD
Dartmouth Hitchcock Medical Center
Session 3:

**Methadone Induced QT Prolongation in a Patient with Torsade de Pointes in a Chronic Patient**
Antonio Aponte-Feliciano MD
UMass Memorial Medical Center

**Open Lung Concept in Intensive Care Medicine**
Konstantin Balanov MD
Boston University Medical Center

**Case Report: Cardiac Arrest During Labor: Thrombus in PFO**
Aparna Dalal MD
Caritas St. Elizabeth Medical Center

**Case Report: Awake Craniotomy in a Patient with COPD and OSA**
Kendrick Joyce MD
UMass Memorial Medical Center

**Case Report: Compartment Syndrome following Heparin and TPA for Middle Cerebral Artery Thrombosis**
Andrew Cocchiarella MD
UMass Memorial Medical Center

**Anesthetic Management for Resection of Carcinoid Tumor of the Lung: A Case Presentation**
William Rittinger DO
UMass Memorial Medical Center

**Unusual Suspect: Aeromonas caviae infection in the Surgical ICU**
Maksim Zayaruzny MD
UMass Memorial Medical Center

Session 4:

**Anesthetic Management of a Patient with End-Stage Pulmonary Disease and Cor Pulmonale for Emergency Appendectomy**
Preeti Arora MD
Tufts-New England Medical Center

**Complex Neuroanesthesia for a Patient with Cervical Spinal Cord Compression in the Presence of a Pheochromocytoma**
Suzanna Gil MD
Tufts-New England Medical Center

**Durability of Antiseptic Central Venous Catheters as a Function of Duration of Catheterization: Silver/Carbon/Platinum versus Minocycline/Rifampin**
Theo Matheos MD
UMass Memorial Medical Center

**Easy Laryngoscopy with Difficult Intubation**
Vishal Raizada MD
UMass Memorial Medical Center

**Preoperative Versus Postoperative Bolusing of Preoperatively-Placed Continuous Femoral Nerve Block Catheters for Patients Undergoing Unilateral Total Knee Arthroplasty**
Bruce Vrooman MD
Boston University Medical Center
